situation: Expansion of an existing shopping centre to reaffirm its premier position in Melbourne's southeast.
solution: Demonstrating Atkar's unique ability to deliver a complete range of product solutions for this diverse project, Westfield were supplied a wide selection of samples and technical data to facilitate efficient decision making. Au.diGroove was the natural option for ceilings and walls in the acoustically challenging fresh food areas. Sporting Globe restaurant's contemporary fit out required a custom Au.diSlat ceiling panel for a dark, reflective finish. Atkar's substantial fibre cement fabrication experience helped deliver custom column designs to exacting specifications with a high quality but raw, uncoated finish that saved many hours of installation time.

- 1_ Fresh food area
- 2_ Warm, high performance ceiling
- 3_ Sporting globe
- 4_ Precise fibre cement column covers
- 5_ Speciality shops separated by columns
