

Atkar Architectural

Acoustic and decorative solutions

Three leading edge product ranges
designed to suit diverse acoustic
and architectural project requirements.

beyond expectations

Atkar
ARCHITECTURAL

Transform design potential.

Atkar Architectural has an unrivalled heritage working directly with the design and construction industry. We see proof of endless possibilities in building design every day. Our role is to help you transform design potential into exceptional built solutions, delivered ahead of time. Atkar is your trusted partner, delivering beautiful, innovative and effective architectural acoustic solutions for any project specification.

With innovative architectural and acoustic technology, Atkar makes your job easier by facilitating impressive results within your project timeline. Our three distinct and comprehensive product ranges are designed to suit diverse acoustic and architectural project requirements.

Three leading edge ranges

Infinity Premium acoustic solutions range of architectural and acoustic panelling systems that are fully customisable and offer leading acoustic performance. Architects and designers depend on the high end quality of our Infinity range to deliver a result that is functional, beautiful and fully customisable.

Quantum Modular acoustic solutions range is an efficient and economical solution for projects where timing and budgets might be limited, but style and aesthetic is paramount. Available in a range of standard sizes, profiles and finishes, it includes solid infill panels that can be cut on site to suit most wall and ceiling size requirements.

Horizons Decorative solutions range is a collection of stylish and elegant wall and ceiling products that will provide a unique and innovative ambience to any project. Although each product is decorative in nature, great acoustic performance can still be achieved with some products and options.

Premium. _____

Modular. _____

Decorative. _____

Infinity_____ **Premium acoustic solutions range.** Atkar’s premium range offers excellent acoustic performance, aesthetic appeal and the ability to fully customise solutions to realise the vision of Australia’s leading architects and designers.

Premium quality and acoustics_____ All panels are produced with our integrated acoustic treatment, certified to perform effectively even in the most demanding situations.

Full customisation_____ Our team consult directly to provide fully customised design solutions to suit the specifics of any project brief.

**Premium.
Flexible.
Aesthetic.**

Concealed fixing systems_____ A beautiful, seamless finish is essential to achieving outstanding results. Atkar’s expert team provide on-site assistance to ensure the end product delivers beyond expectations.

Large range of designs_____ With 14 products including Au.diPanel, Au.diSlot, Au.diGroove and VoglFuge, our Infinity range can deliver solutions to a wide range of project specifications.

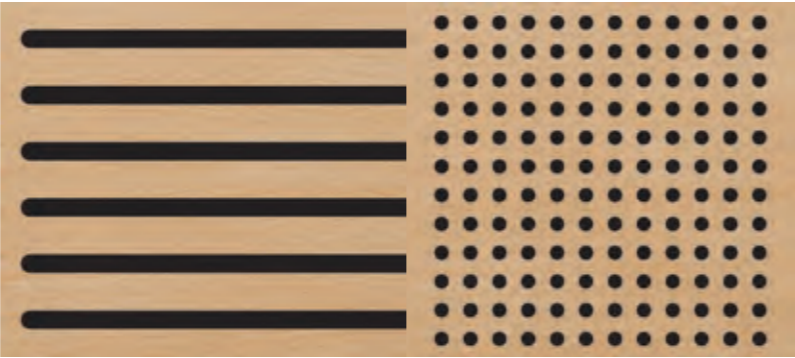

Quantum_____ **Modular acoustic solutions range.** Atkar’s modular range is available in a selection of standard sizes, profiles and finishes and include solid infill panels that can be cut on site to suit most wall and ceiling applications. Easy to install, it offers great acoustic performance with shorter lead times.

Shorter lead times____ Quantum is the ideal solution for projects that need to meet shorter lead times but still want to achieve outstanding aesthetics and acoustic appeal.

Great quality acoustic panel solution_____ Atkar’s commitment to delivering only the best quality products and acoustic performance continues with the Quantum modular range.

**Modular.
Economical.
Efficient.**

Standard panel sizes and patterns____ To allow for efficiencies in manufacturing, cost and installation, Quantum includes a standard selection of panel sizes, patterns and substrates to suit a wide variety of design requirements and budgets.

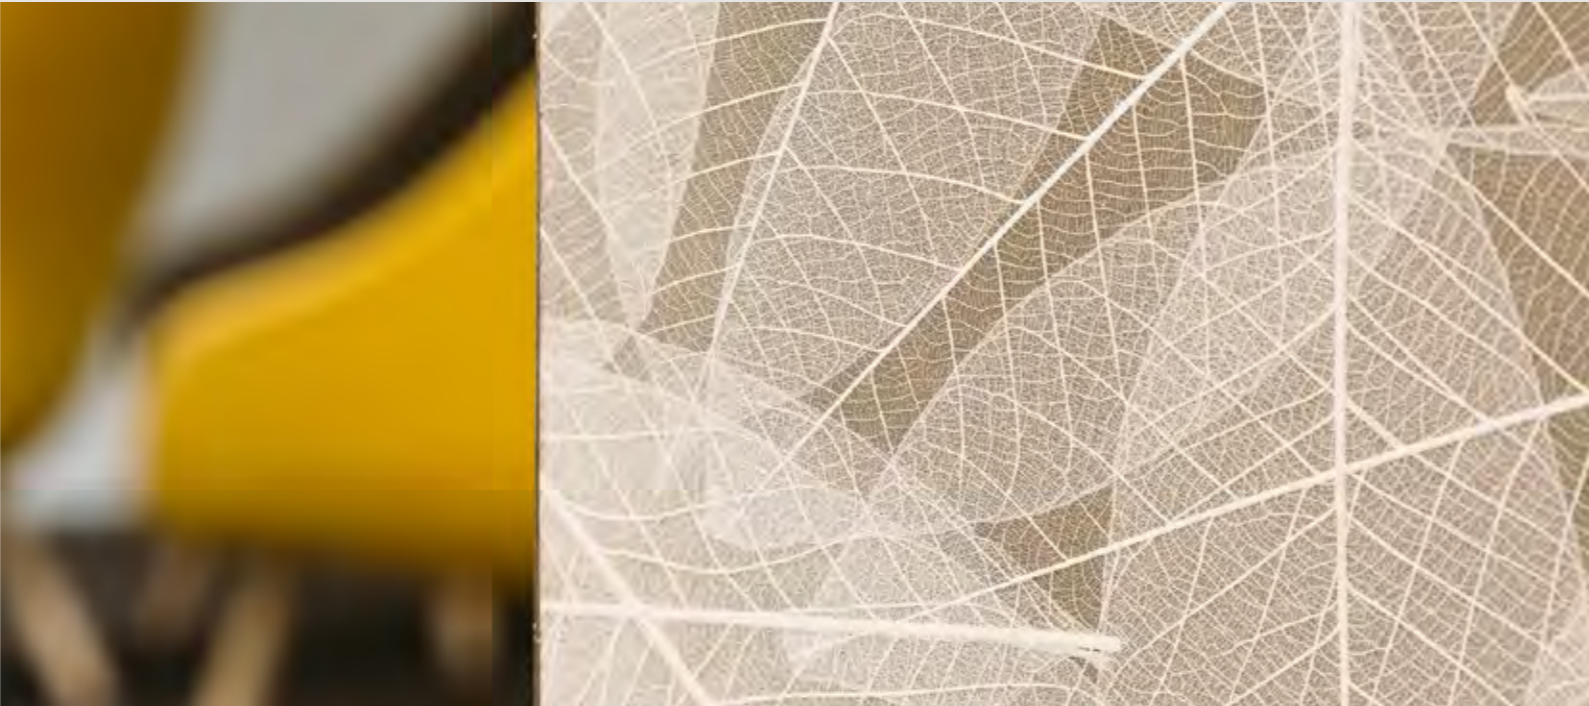

Horizons_____ **Decorative solutions range.** Atkar’s decorative range offers a collection of stylish and elegant wall and ceiling products that will provide a unique and innovative ambience to any project. The Horizons range offers the perfect solution for a feature wall or ceiling and are ideal in retail and corporate environments.

Custom and acoustic options_____ Although the Horizons range is decorative in nature, great acoustic performance can still be achieved in some products along with some customisation options.

Attractive and innovative designs_____ The range includes an innovative 3D panel, a world leading surface finish made from natural organic materials, decorative screens and a unique graphic wall panel.

**Decorative.
Innovative.
Unique.**

Unique decorative surfaces_____ If you are seeking a distinctive design for your next project, the Horizons range offers the perfect solution for a decorative feature wall or ceiling.

More than just products.

We know that in the design and construction industry, you need more than just a high quality product. You need a trusted partner who can provide you with the complete package. Atkar Architectural offer ongoing service support from specification through to construction, to ensure our products go ‘beyond expectations’ for you and your clients. We’re driven to make your projects exceptional.

Complete Finishes Range_____We can tailor a finish solution to your design requirements or you can choose from premium laminate, 2 pack paint colour, timber veneer and fabric finishes.

Concealed Fixing Systems_____Providing a seamless and integrated look, our concealed fixing solutions are also easy to install.

Dedicated Architectural Consultants_____Who will work one-on-one to find the best design solution to meet your project needs.

Experienced Engineering Team_____Who can develop shop drawings and customised solutions to meet even the most complex designs.

On-site assistance_____We offer ongoing installation and product support for builders and contractors.

Range specifications_____Atkar's comprehensive range of premium, modular and decorative product solutions deliver 'beyond expectations' for any project and design requirements.
